Eight year old solid using ranch horse. Stands 15.1 hands tall and weighs about 1250 lbs. Maggie has been used extensively to rope and doctored big cattle outside and she runs cattle well. She gathered cattle in big rough country and can go all day. She is also good at sorting and working in the corral. Drug calves at branding and started heeling out of the box. Nice light handle and gentle. Will be offered for sale at 2016 Real Ranch Horse Invitational Sale in Billings, Montana April 15/16th 2016.
